

NIFA
Independent Registered Municipal Advisor
Municipal Advisor Certificate

The Nassau Interim Finance Authority has engaged Lamont Financial Services Corporation to be its Municipal Advisor and IRMA. The Authority will rely on Lamont Financial Services to provide advice on proposals from financial services firms concerning the issuance of municipal securities and municipal financial products generally (including investments of bond proceeds and escrow investments). The IRMA designation covers all aspects of NIFA's debt portfolio, investment of bond proceeds, and interest rate swaps, and may cover certain special projects, as assigned.

Accordingly, this certificate may be relied upon until its withdrawal (notice of which will be posted on this website). If a proposal received will be seriously considered by the Authority, the Authority will share the proposal with its municipal advisor. The Authority makes no representation as to the independence of its municipal advisors with respect to any individual municipal market participant. However, Lamont has represented that no employee of Lamont has worked at a broker dealer in the past two years.
